

Our contribution

The Chemical Industry contributes **£195 billion** each year to the UK economy:

- Chemical manufacturing (**£10bn**)
- Pharmaceutical manufacturing (**£9bn**)
- Consumer products (**£46bn**)
- Automotive (**£11bn**)
- Aerospace (**£7bn**)
- Construction (**£23bn**)
- Extraction of oil and gas (**£24bn**)
- Production of electricity (**£6bn**)
- Other (**£59bn**)

Our agenda

We want to grow that by **50%** to **£300 billion** by:

- Securing competitive energy and feedstocks
- Accelerating innovation
- Re-building UK chemistry supply chains
- Delivering climate change solutions
- Developing world-class skills
- Promoting the work of our companies to the global market-place
